

How Much Would It Cost to Buy a Farm Animal for a Family in Rwanda?

Chicken is 4000 Rwandan francs equivalent to **USA \$ 7.00**

Chickens are used for eggs, breeding and food.

Goat is 25000 Rwandan francs equivalent to **USA \$ 42.00**

Goats are used for breeding and as food

Cow is 250.000 Rwandan francs equivalent to **USA \$ 417.00** but for the cow, it depends with the breed the more high quality breed it is more highly priced, but \$ 417.00 is the standard for the mixed cow that local people can afford to take care

Cows are highly valued for their milk, for breeding and for the fertilizer they produce. The soil in Rwanda is very poor. The fertilizer is needed to help grow crops for sale and to feed the family.
