About Each Training

1. The treasurer training is for new treasurers, prospective treasurers, or treasures who have questions about best practices. This training will prepare and equip treasures to do the job in our churches and will provide valuable resources and available aid throughout the year upon request.
2. The technology training will be discussing and aiding churches to use technology in worship, bible studies, communications, etc. This is a 'How To' as well as a brainstorming session
3. Polity training - come and hear/discuss the revisions to the Manual of Administrative Operations that guide the running of the Presbytery.
4. The Elder communion training is to equip elders to serve communion in the absence of a pastor. This is especially handy for churches without consistent pastoral leadership, though can also be useful for churches with a pastor.
