

WEBSITE AND SOCIAL MEDIA POLICY
PRESBYTERY OF KISKIMINETAS

The website of the Presbytery of Kiskiminetas will have two main foci: to provide information to those seeking Presbyterian churches in the Kiskiminetas coverage area and to provide news and documents to those already connected and in service to churches within the bounds.

Because of this dual focus, those items posted to the website must be in direct relationship to the needs of the Presbytery as a whole or will directly benefit a church within the Presbytery.

The Presbytery Facebook page(s) will serve in different ways. The main page, which exists under the page name “Presbytery of Kiskiminetas” will provide a means to point to the website, to allow for easy posting of photos and events, and to send frequent updates rather than posting changes that will issue an RSS update on the website (for example: pictures with scripture).

Added Facebook pages can provide places for discussion boards, sale of items from churches, Rwanda connections, and innovation team brainstorming areas. Some of the pages will restrict membership (be closed and/or secret groups) to limit the level of sharing to those who have been accepted or invited to participate, based on the needs of each page.

All pages will be administered by the staff of the Presbytery (General Presbyter, Administrative Assistant, and Resource Center Director). Others may be added as editors of pages as needed for specific amounts of time (normally for six weeks on the main page, more or less on the others), to be determined by the staff of the Presbytery on a case-by-case basis. An administrator may suspend editor privileges and postings may be removed if posts are found to be offensive or against proper church doctrine.

Questions for clarity may be brought to the Presbytery Administration Team.
